## About

I'm a highly motivated college student looking to gain experience in the professional world. I have experience developing small websites and programs, working with other developers in an agile like environment and interfacing with customers to ensure product satisfaction. Currently open to work opportunities or internships.

I currently attend SUNY Polytechnic full time pursuing a CS degree. In my free time I enjoy playing guitar, making games, coding tools for myself, and going hiking.

## Education

### BS Computer Science

GPA: 3.29 | In Progress

Suny Polytechnic

### AAS Computer Information Systems

GPA: 3.83

Suny Onondaga Community College

## Experience

### Fulfillment Center Warehouse Associate

2023-06 - Present

Amazon

Performed audits on employee performance and provided corrective coaching when necessary. Assessed damaged products and determined if and where they should be disposed of.

### Switcher

2021-09 - 2023-06

Fed-Ex Ground

Used an electric switcher to move trailers around the yard and put them in their designated spaces.

### Assistant Director

2016-11 - 2019-09

Chick-Fil-A

Managed front of house staff in a fast paced restaurant environment. Received and handled guest complaints in person and over the phone.
